Oregon Chapter of the American Meteorological Society (AMS) Statement on Climate Change

Adopted by the Oregon AMS Executive Council: June 2019

"The Oregon chapter of the American Meteorological Society (AMS) has no formal statement or policy regarding climate change. Our national headquarters does not require, or suggest local chapters issue policy statements on this subject. As such, the Oregon AMS chapter defers questions regarding climate change to our National AMS Headquarters in Boston. Their official policy statement is available on their website at: <https://www.ametsoc.org/>."
